

Is it time

*to talk to a doctor about
joint replacement surgery?*

- Does your affected joint hurt one or more days per week?
- Does the pain interfere with your sleep?
- Is it painful for you when you perform everyday activities?
- Are pain medications no longer working?
- Is joint pain limiting your participation in activities you love?

If you answered "yes" to any of the questions above, you may be ready to learn more about joint replacement surgery.

- We're here at Lawrence Hospital Center to help you get back to enjoying life's activities.
- We can put you on the road again.
- We believe that education is key to your wellness.
- We believe in a tradition of caring.
- We believe you can achieve the goals you strive for.

LAWRENCE HOSPITAL CENTER

Joint Replacement Center

Restore Your Stride

The Lawrence Hospital Joint Replacement Center

The Lawrence Hospital Joint Replacement Center offers board-certified surgeons, standardized protocols, orthopedic surgery suites, case management, pre-surgical education classes and dedicated physical and occupational therapists – all designed to assist your return to a healthy active lifestyle. When it comes to hip replacement, knee replacement or any other joint replacement, our highly trained staff do whatever they can to make every patient feel like our only patient.

Individual Pain Management Program

Our Pain Management Program includes anesthesiologists, neurologists, physiatrists, and rehabilitation therapists trained in the latest techniques. We also offer complementary medicine and alternatives such as acupuncture.

If you need surgery, our anesthesiologists offer the latest in nerve block techniques done with our “state-of-the-art” equipment. The procedure offers effective post-operative pain management. With less pain you can recover more quickly.

“I was very anxious about surgery. The attention I received from the nurses and my doctor was great. LHC is my number one choice.”

The Department of Orthopedics

The Department of Orthopedics at Lawrence Hospital Center is known as a leader in the treatment, diagnosis, rehabilitation and prevention of injuries and diseases of the musculoskeletal system.

We utilize “state-of-the-art” technologies, along with our outstanding Orthopedic Surgeons, supported by an exceptional team of nurses, physical therapists, occupational therapists, nutritionists and case managers.

Why Choose the Lawrence Hospital Joint Replacement Center?

- A patient care team and nursing unit dedicated to total joint replacement patients.
- Highest quality prostheses.
- Innovative pain management techniques.
- Dedicated occupational and physical therapy staff for your patient care.

- Specially designed nutritional programs to facilitate recovery.
- Individualized case management and discharge planning services.
- Free pre-operative classes.
- Conveniently located in southern Westchester County.
